

As the district prepares to reopen schools in the fall on August 31st, we do so with student and staff safety at the forefront of our planning. On Monday, July 13, 2020, the school board approved the district’s Health and Safety Plan which outlines our plan for reopening. [Click here](#) to read the plan. The district will offer three (3) learning options for our students. Please note that details of each model may be modified as state and federal guidance evolves. We ask that you commit to your choice for **at least one full marking period**, after which time you may notify the school to change your option.
